## **East County High School Scholarship Awards**

---

Dr. Sloan McDonald and Dr. Roberto Deloso started this Scholarship award over 17 years ago for the Antioch School District where their practice is located. In 2000, they expanded it to include all 5 East Contra Costa County High Schools and in 2008 Heritage High School was added. The most recent addition was made in 2012, Dozier-Libbey Medical High School.

Their scholarship award is offered to a high school graduating senior, who has achieved academic excellence, has a history of community service and plans to attend a university, community college or a vocational school.

These scholarships are given by the Doctors as a way of supporting education and more importantly giving back to the communities that have supported their practice over the years!

### **Application Process**

The application process begins at each of the respective high schools. The student is required to complete the **Local Scholarship Application Form** which they can obtain from their Career/Counseling Center. They should follow guidelines and deadlines for submitting the completed application which their school has set.

Once the applications are received, the selection process begins. All applications are reviewed by their High School's Scholarship Section Committee and this Committee will choose the recipient for the award. The winner will be announced at the school's award ceremony at the end of the school year.
